Region

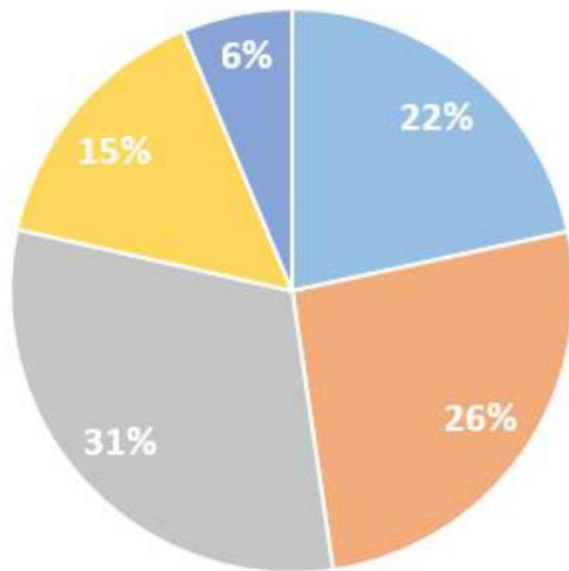

A collage of various data visualization charts including a 3D pie chart, a line graph, a stacked bar chart, and a pencil. The background is a light blue gradient with faint grid lines. The 3D pie chart is at the top right, showing several segments in different colors. The line graph is on the right side, with a y-axis ranging from 0 to 300. The stacked bar chart is at the bottom left, with bars of varying heights and colors (blue, red, green). A pencil is positioned diagonally across the bottom left corner.

9

If you had an opportunity to transfer 1% of your taxes to public organizations, which of them would you support?

Respondents' gender

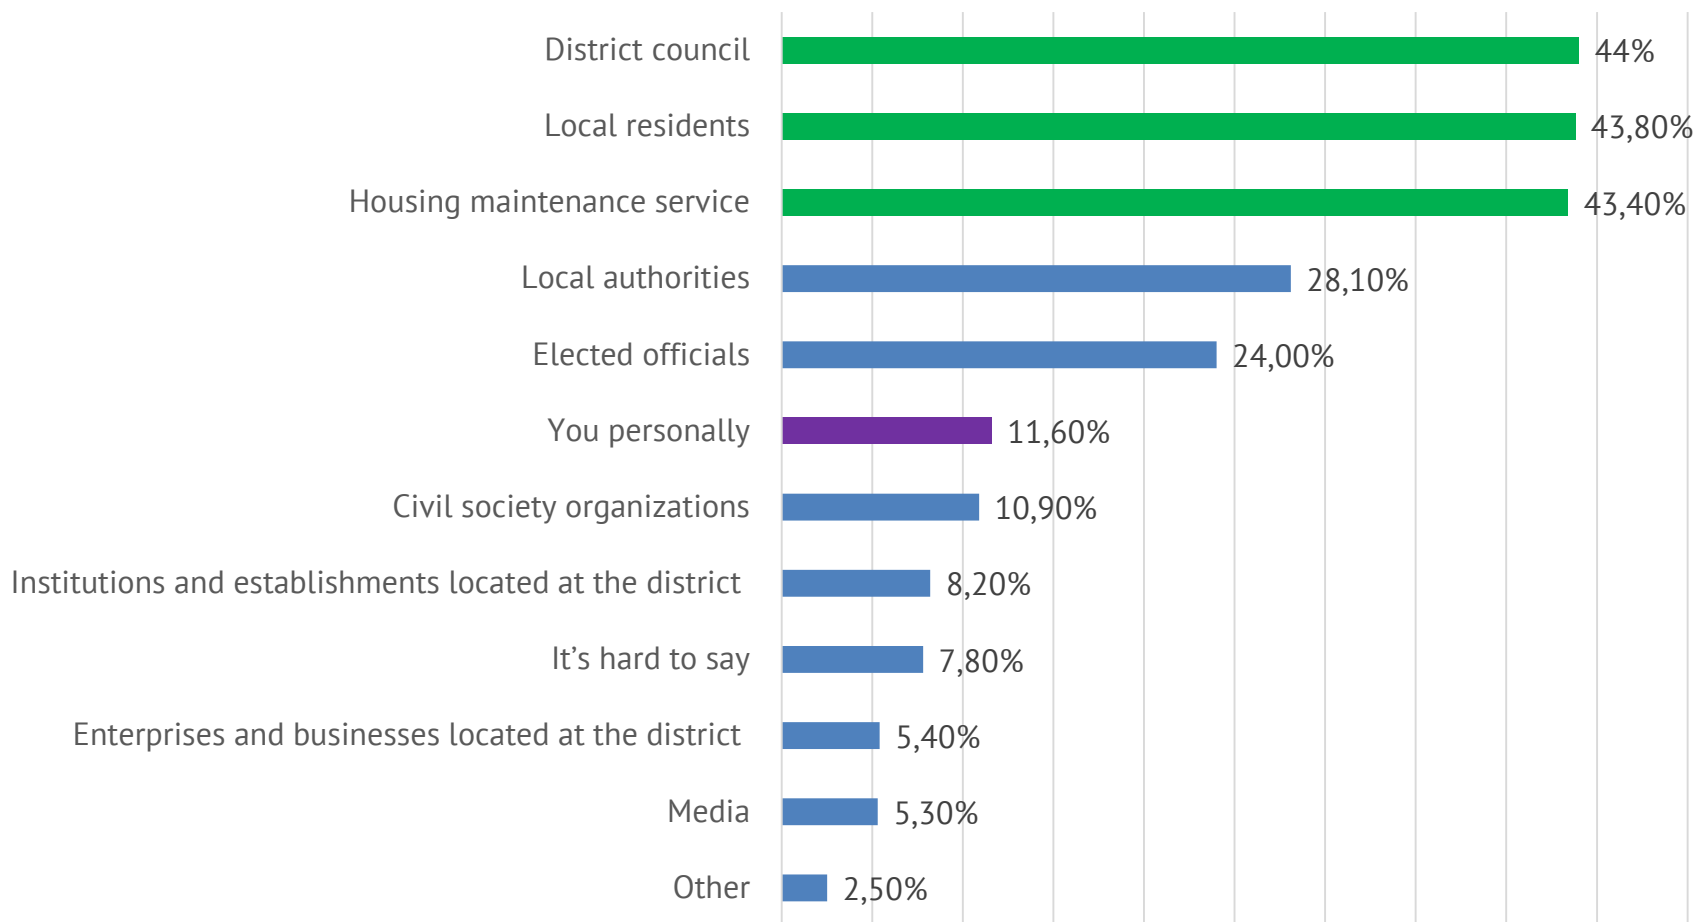

An aerial photograph of a traditional Japanese village, likely Gassho Sato in Shirakawa-go. The houses feature steeply pitched, thatched roofs made of straw. The village is surrounded by lush green rice fields and dense forests. The scene is captured from a high angle, showing the layout of the buildings and the surrounding landscape.

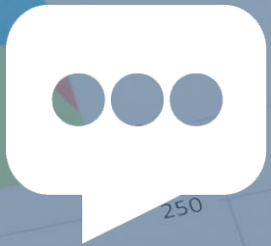

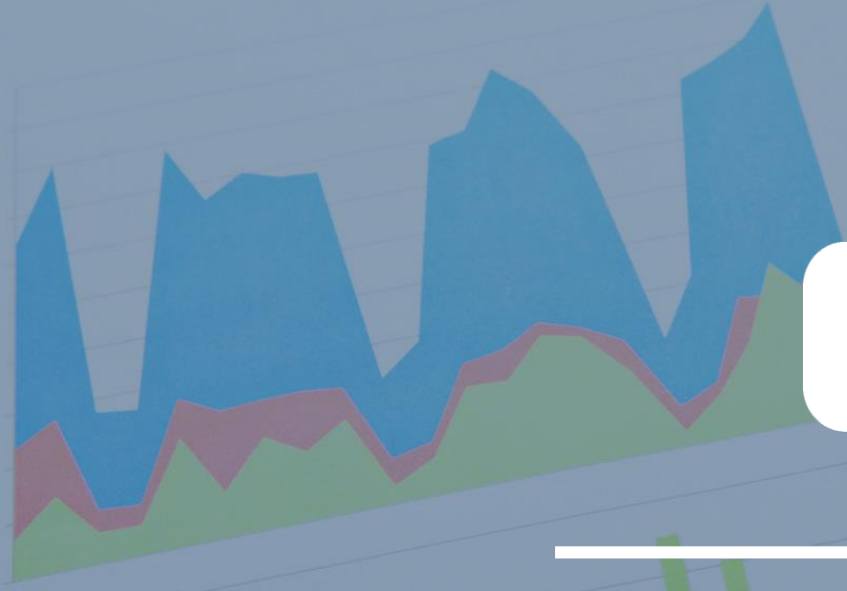

10

Who, in your opinion, should solve the problems of your local community (houses, lobbies, yards, streets)?
